

Muhammad Fahad

MERN Stack & Flutter Developer | CS Final Year — NUST

fahadfaheem174@gmail.com | 0340-7418174

LinkedIn | GitHub | Rawalpindi, Pakistan

ABOUT ME

Impact-driven Full Stack Developer with **1+ year of professional experience**, including a completed internship at **Al-Raheem Technologies** building production-ready systems. Strong expertise in the **MERN stack**, **Flutter** and **REST API integration**. Proven ability to deliver **responsive UIs**, **secure backend** with **role-based access control**, **real-time databases** and **scalable web architecture**. Final-year **NUST CS** student ready to contribute from day one.

PROFESSIONAL EXPERIENCE

Web Developer Intern — Al Raheem Technologies

May 2025 – Aug 2025 | Rawalpindi, Pakistan

- Built a complete law firm web platform for **M&H Advocates & Corporate Consultants** from scratch — case management, 10+ legal intake forms, appointment scheduling via Calendly.
- Implemented **Firebase Authentication** with Google OAuth, email verification, and real-time auth state management across all pages
- Stored form submissions in **Supabase PostgreSQL** with Row Level Security; integrated **EmailJS** for automated email notifications
- Deployed on **Vercel** with **CI/CD via GitHub Actions**; rated **"Brilliant and Exceptional"** upon completion

PROJECTS

Presence+ An Enhanced Bluetooth Based Attendance System (*Flutter · Bluetooth · Real-time Sync*) — Smart automated attendance app with separate teacher/student interfaces, analytics reports, and **real-time sync**.

Smart Image Enhancer (*Flutter · Flask · WebSockets · ESRGAN*) — AI-powered mobile app with super-resolution backend, real-time WebSocket processing and Firebase storage.

Car Damage Detection (*Python · YOLO · ML*) — Computer vision pipeline for automated damage detection with a web interface for upload and results.

Blogging Platform (*PHP · Laravel · MySQL*) — Full-stack blog platform with **JWT authentication**, admin panel, and complete **CRUD functionality**.

Digital Marketing Landing Page (*Next.js · Typescript · Tailwind CSS*) — Animated, modern landing page with reusable component architecture and smooth transitions.

SKILLS

Frontend

React.js, Next.js, Typescript, JavaScript, HTML5, Tailwind CSS, **Responsive Design**, **CI/CD**

Backend

Node.js, Express.js, REST APIs, Firebase

Databases

MySQL, MongoDB, Supabase, PostgreSQL (familiar)

Mobile

Flutter, Dart, **MVVM Architecture**

AI / Python

Python, Flask, YOLO, WebSockets

Tools

Git / GitHub, Trello, Jira, Agile/Scrum

Other

JWT Authentication, **RBAC**, OOP, API Integration, Real-time Synchronization

EDUCATION

BS Computer Science NUST, Islamabad

Sep 2022 – Present

8th Semester — Final Year

CERTIFICATIONS

- Internship Certificate — Al Raheem Technologies (2025)
- Networking Basics — Cisco Networking Academy (2024)

LANGUAGES

- Urdu — Native language
- English — Fluent
